A motion to accept the financial statement was made by Mr. Tamporello, seconded by Pastor Bias, and voted unanimously in favor.

Mr. Anthony Governale, Planning & Zoning Director, gave a brief Flood Damage Prevention Progress Report (copy on file).

Mr. Governale stated that the Planning & Zoning Commission had met on April 14, 2021 to take up an application to rezone property located at 8305 Hwy 182 East and denied the request. Only one parcel was located within the City limits. The parish did meet and approved the moving of the property line. No action needed to be taken by the City Council. Mr. Tamporello stated that there were some Park Road residents in the audience that may want to address the Council. Alfie Ratcliff said that he was not sure what was planned for the property but if it was going to be a dirt bike trail like was discussed on the streets, the police department would be busy with complaints. Recently, the property owner had a big truck that ran through the property and his yard flooded more since he had started running vehicles on the property. A motion to table the situation was made by Mr. Tamporello, seconded by Mr. Domangue and voted unanimously in favor.

Mr. Pete Lawton, Compliance Officer, stated that the property at 310 5<sup>th</sup> Street had been secured and he wished to have more time to reach the property owners. The property at 313 Iowa Street/ 711 Ditch Avenue had caught fire in December and several letters had been sent to the property owner requesting that the house be secured. Mrs. Crystal Barber and her son Chad Arabie addressed the Council regarding the property. Mrs. Barber stated that her mother owned the house and she had passed away three years ago. Her will left the property to both Mrs. Barber and Mr. Arabie, but a succession needed to be completed. She was trying to get the money to pay the attorney and needed her son to meet with her and an attorney, but he was not cooperating. The house caught fire on Christmas Eve morning. Nothing had been done on the house because they were advised by an attorney not to do anything until pictures could be taken. The plan was to file a suit against the City because they felt that the electrical lines were too close to the house and caused the fire. City Attorney Paul Landry stated that no matter the status of the succession, the City could still condemn the property. Mrs. Barber said that the suit could not be filed until a succession was completed and she asked for more time to remove some things from the house. Mayor Dragna stated that the house was very close to the sidewalk and the alley and could easily get bumped by a car and fall down. He wanted to ensure citizen safety. He asked Mrs. Barber how much time was needed to remove things from the house. Pastor Bias asked if the house could safely be entered. She stated that they had walked through the house before. Mayor Dragna suggested that two weeks be given to allow removal of personal property from the house. A motion was made by Pastor Bias to condemn the house at 313 Iowa/ 711 Ditch Avenue after giving the owners two weeks to remove any personal belongings, seconded by Mr. Hymel and voted unanimously in favor. 1330 Oil Tank Alley, had nothing done to it, the grass had not been cut, and the two smaller houses needed to be demolished as soon as possible because they were in bad shape. No action needed to be taken because the council had previously voted to condemn the houses. 514 Federal Avenue had been completely torn down by Sid Moffett. Nothing had been done on 107 Oak Street but he did have a bid from Joey Billiot to demolish it. The owner came and got a demolition permit, cut the grass but did nothing toward the tear down and was not returning his calls. He said that he would move forward with that demolition. He stated that on the Table Five property they demolished one of the trailers and were continuing to work on cleaning up the property. Mr. Stephens asked if the noise issue at Table Five had been resolved. Mayor Dragna stated that the Police Department had met with the owners and they were really cooperative. Captain Liner stated that they had had a few complaints, but the owners had actually been self-reporting any issues. Officers had gone and sat in Mrs. Carrie's home to hear the noise level. The bar had moved speakers inside the building and that seemed to have rectified the problem so far. Mr. Stephens asked Mr. Lawton about the Greenwood Street property. Mr. Lawton said that the owner had secured a permit to demolish the house but ran into a problem and did not have proper license to do the work. They let him begin tearing it down, but he would have to have drawings before he could rebuild.

The next matter on the agenda was the reallocation of funds for the Sewer Department; whereupon,

Mr. Hymel offered the following Resolution, who moved for its adoption.

#### RESOLUTION NO. R: 21-16

The next matter on the agenda was the website design agreement. Mayor Dragna stated that right now the City had about six or seven different websites and most were not linked together. He said that they put bids out and one came back from the current company that did the webpage. Most department heads did not want to work with the present provider. The quotes were basically equal, but the current company alleged that the City owed them some back payments that were disputed by the department head. This drove up the total price. He said since it was considered a professional service, no bids were required. Mr. Courtney Long of Schola Designs & Consultation, LLC had also submitted a proposal to build the website for \$50,000. Mayor Dragna said he and a few other employees had attended a workshop for Mr. Long to show them his capabilities. He said that everyone present was impressed with the presentation. He said he would like to see the council authorize the contract with several changes suggested by the City Attorney.

Mr. Landry stated that there was some language that needed to be changed in the contract and Mr. Long already had those suggestions. Pastor Bias asked if this would be a major upgrade. Mr. Long stated that this would be a completely new site and he would start from scratch. Mr. Stephens asked if the city had received quotes. Mayor Dragna stated that the other bid was close but requested back payments for work the city felt was not completed. Mr. Hymel asked if we were still under any type of contract with the current provider. Mr. Landry said that he was only aware of some emails back and forth from the provider claiming he is owed money, but no other action had been taken. Mr. Hymel felt it was a great idea to put everything on one master website. Pastor Bias asked what the cost was. Mayor Dragna said it was \$45,000 total and the other proposal was \$44,000 plus back payments. Mr. Long had done a web audit and showed employees where the site could be improved. He used a platform called Webflow so the City would have the capability to make its own changes and not have to call for every change, and this would save the City money. Mayor Dragna said that putting pictures up is not enough for a website today. He felt they needed videos and the ability to advertise and promote the City, and currently the calendar was not even updated regularly. Mr. Stephens asked Mr. Long if he was familiar with or had ever used Word Press. Mr. Long said that he was not an expert but had but he had a team of nine designers and his field was basically brand development and strategy portion of the site. They would work collectively to build the site. Mr. Tamporello said that when he searched Schola Designs he could only find a Facebook page but no website. He asked if Mr. Long had done any other city websites. Mr. Long said he had not but he had the capability. He said his job was to come in and create three points of interest as far as the City was concerned. Awareness through design, create a revenue stream to make it more efficient for the City. Mr. Tamporello agreed that the site needed to be updated but his main concern was that only one person was allowed to give presentations. He was aware of other computer companies and would like to see a couple of bids and presentations before making any decision. He did not think a decision needed to be made right away. Mr. Long disagreed. He said he had friends across the nation go to the city website and look at it. They all felt we were really behind and, in his opinion, it was a priority. Mr. Tamporello said he would like to see it begin within the next 90 days but did not feel comfortable voting on something with only one price and presentation. He would like to see the city get two or three viable quotes and/or presentations. Mayor Dragna understood what Mr. Tamporello was saying, but said that he was not a technical person who could write an RFQ. He made a couple of calls explaining what he was looking for, but did not contact Cypress Tech. He said the City would have to hire someone to write an RFQ so an apples to apples comparison could be made. He did not want to spend more money on the RFQ. Mr. Long stated that his first process would take about 90 days. He was all inclusive and did not just jump at things. He would take into account governmental factors and the citizens. He would build a brand that the citizens could believe in. The first 60 to 90 days he would be in the community having workshops to actually build the framework of what they were going to build and to be transparent in the process. Pastor Bias said we were dealing with an antiquated website and the lower bidder city employees refused to work with. He said we may need to put out a few more feelers. It may be a good idea to let Mr. Long make a presentation to the Council. Mr. Stephens said we were looking to spend \$45,000 and had two prices and a general RFP would be how many pages, the price per page the platform used and would the city have priority for changes. He said he was not ready to jump on this immediately. Mr. Long asked them to keep in mind that the price did include all content, video and photography and to be fair please include everything. Mr. Stephens stated that he spoke to the person who did Walk On's Restaurant web page and it cost \$60,000. He understood it was as restaurant and was different. He would like to see RFP and presentations to have some idea of what is out there before making a decision. Mayor Dragna said that he was not prepared to write an RFQ himself because he knows nothing about it. The city could look for someone to write it, but it may be expensive. Mr. Tamporello also said he would like to see the presentation. Pastor Bias asked how many people could attend at once and still be legal. Mr. Landry said according to the sunshine laws, a quorum could not meet in private. Mr. Long said if they councilmembers could come to him at his office, he would give the presentation to them in small groups. Mr. Charlie Solar said that he was very impressed with the presentation and thought the city needed a new site as soon as possible. Mayor Dragna said that he would share Mr. Long's contact information with the Council. Pastor Bias said he would like to table the issue and see the presentation and, in the meantime, it would be a good idea to get other bids. Mr. Long said he was not in the business of educating his competition, and if it was going to go out for bid, he would rather not share his presentation. A motion to table the subject until after the presentation was made by Pastor Bias, seconded by Mr. Tamporello, and voted unanimously in favor.

The first reading of the 2021 Millage Ordinance was opened. No definitive action was necessary.

The first reading of the Declaration of Surplus and Sale of property adjacent to 1811 Front Street was opened. No definitive action was necessary.

The public hearing was opened for the Morgan City Development District Ordinance. No one appeared for or against said ordinance; whereupon,

This ordinance was introduced with a first reading on March 23, 2021. Published by title on March 29, 2021.

Mr. Hymel offered the following ordinance, who moved for its adoption.
